WITH A 20 MINUTE BOATRIDE from Stadshuska-  
 jen you will reach Lindholmen, a small island decora-  
 ted with wonderful buildings from the end of the 19th  
 century. It is truly untouched by time, there is neither  
 running water or modern bathroom facilities but the  
 environment is incredibly relaxing. The island is today  
 perfectly suited for parties, excursions and kick-offs.

### Rental

During the summer both the entire island and separate houses are available for rent through Klubbensborg. The island is best suited for daily activities since drinking-water must be transported and there are only outhouses available for bathroom needs. If these type of discomforts are not a big concern than we highly recommend renting one of the smaller houses for a couple of days relaxing vacation.

### How to get there

There is a dock at the island where the Drottningholm-boats can drop you off after only a 20 min boatripe from Stadshuskajen. Please do note however that the Drottningholm-boats do not

always stop at Lindholmen. Other alternatives are taking a boat of your own.

### Rules

The Klubbensborg Recreation Centre Association owns the houses on Lindholmen and is responsible for taking care of the island. The island is open to the public between 9-17. However this is restricted to the beaches and a respectable distance should be kept to the houses. It is not allowed for the public to grill or barbeque and trash may not be left on the island. During the remaining hours of the day only our guests are allowed on the island. The public consists of individuals not involved in any kind of organized activity on the island.

### Prices

The entire island,  
 max 65 pers..... 9 000:-/24 hours
